Audemars Piguet Royal Oak OffShore Las Vegas Case: Black-Coated Stainless Steel Bracelet/Strap: Hand-Sewn Saddle-Cut Black "Hornback" Crocodile Leather with Red Stitching Clasp: Pull To Open Folding Clasp Dial: Matt Black Mega Tapisserie Dial with Red Arabic Numerals & Hands Movement: Automatic Self Winding Dimensions: 42mm Water Resistance: 100m Features Limited to 400 Pieces, Case Back: Engraved with "Las Vegas Strip", Up To 55hr Power Reserve *It Comes With A Beautiful Presentation Box With A Deck Of Cards And A Royal Flush Design On Top.* Renowned for its unique designs and unparalleled technical achievement, Audemars Piguet has taken the spirit of the Las Vegas Strip and translated it into a vision of bold and sophisticated creativity. The Royal Oak, originally conceived by Audemars Piguet in 1972, was a revolution. The world's first luxury stainless steel sports watch, with its iconic octagonal bezel, has become one of the world's most admired and desired timepieces. The Royal Oak Offshore Las Vegas Strip Chronograph is a dramatic study in contrasts. The exquisitely finished blackened steel case with its elaborate and distinctively crisp geometry and a richly textured "Mega Tapisserie" patterned dial form the background for the brilliant red numerals and tachymetric bezel, a function which measures speed over a measured distance. The fine detailing of the case and hands is matched by the watch's complex interior. The Royal Oak Offshore Las Vegas Strip Chronograph is powered by the Audemars Piguet manufactured in-house caliber 3126/3840, which uses the manufacture automatic caliber 3120 as its base, a movement which has won accolades throughout the world of fine watchmaking as one of the finest automatic movements currently in

Caseâ€: 18K Rose Gold Bracelet/Strap: Black Alligator Leather Clasp: Rose Gold Fold Over Clasp Dial: Black Movement: Manual Winding Dimensions: 46mm Water Resistance: 30m Features Tourbillon, Hours, Minutes, Anit-Reflective Sapphire Crystal, 192 Hour Power Reserve, *Box, Papers & Dimier Jeweler's Loupe Included* Originally Priced New: \$159,500.00 The Dimier Recital 1 watch is an unforgettable debut performance in the world of haute horlogerie. Within a stately 46mm case sculpted from 18K white or red gold, the Dimier Recital 1 showcases an extraordinary manually wound movement, which is exclusively designed and manufactured by Dimier. A one-minute tourbillon rotates ethereally in its delicately rendered "Lotus Flower" cage, while twin mainspring barrels assure a power reserve of 8 days. A sapphire back reveals the hand-decorated glory of this watchmaking masterpiece, whose sublime details are eloquently matched by the exceptional aesthetic nuances of the dial. Just 100 examples of the Dimier Recital 1 watch will be made, 50 each for both colors of 18K gold. DIMIER The Dimier 1738 watch collection was born of a request by a dedicated collector with a great passion for Bovet timepieces. To accommodate the request of this distinguished gentleman, who desired a watch with a crown at 3 o'clock, Bovet owner Pascal Raffy created a parallel haute horlogerie brand named in honor of the Dimier brothers--noted suppliers of extraordinary watches to the Chinese imperial court in the 19th century. Limited to a an exceptionally small series of watches each year, each Dimier "Recital" is a horological performance of the utmost brilliance, entirely manufactured and handcrafted in Fleurier, Switzerland.

Bucherer has been making fine quality watches and jewelry. A reputation for quality, style, individuality and magnificence has been the hallmarks of this illustrious brand from the opening of Bucherer's first store on the Falkenplatz in Lucerne to the present day. In the early years of the twentieth century, the imperial court in Berlin, in acknowledgment of Bucherer's growing reputation for superior quality and craftsmanship, assigned it the title of 'Official Watchmaker'. Throughout the twentieth century the brand's reputation grew and Carl F. Bucherer presented a really individual watch, the Patravi TravelTec GMT, for today's modern and stylish traveler The Patravi TravelTec GMT stands out above all other time zone watches due to its sophisticated functions and extreme functionality. As well as being a practical chronograph, this stunning watch, which features the exclusive CFB 1901 calibre, also boasts a range of functions enabling several time zones to be displayed. The TravelTec provides solutions for road warriors with a patented movement design that allows three time zones to be clearly displayed simultaneously. And with the ease of a single push-button mechanismâ€"exclusively designed by Carl F. Buchererâ€"the third time zone is operational. Inside Information: Most watches allow for the dates to be moved forward only, however, the Patravi TravelTec GMT allows you to move the date backward as well.

Concord C1 Limited Production

Case: 18k White Gold, 3.3 mm sapphire crystal face Bracelet/Strap: Vulcanized Rubber Clasp: 18k White Gold Folding Movement: Mechanical Hand-Wound Movement Diameter: 48.5mm Thickness: 22mm Water Resistance: 100m Features Hours, Minutes, Sapphire Crystal, Unique Hands for Hours and Minutes, 72 Hour Power Reserve, 22 Jewels (Rubies), Crown Protector Originally Priced News \$420,000.00 The C1 Tourbillon Gravity is presented in a 48.5 mm white gold case and holding a 72-hour power reserve movement with seconds on the side of the Tourbillon carriage, trust index (indication of the balance of amplitude) and the flyback chronograph (hours-minutes). The Tourbillon cage is fitted outside the movement and case, but connected to the rest of the mechanism by a perpendicular pinion. The skeletized dial displays a dark DLC-coated perforated grid, various subdials and tiem measurement indications, superimposed to create a sense of perfectly mastered space. The Concord C1 Tourbillon Gravity astonishes by the whole range of specific features. Just imagine - a tourbillon disconnected from the case, an unconventional seconds indication, a flyback chronograph, a trust index display - all these innovations are accumulated in a single timepiece. The C1 Tourbillon Gravity has been developed in close cooperation with BNB Concept, a company specializing in watchmaking complications. The process of conceiving, elaborating and assembling the watch took them twelve months, with the BNB Concept teams having demonstrated genuine enthusiasm, dynamism and hard work. The result is the creation of a provocative watch equipped with a complex mechanism, an amazing expression of an inventive spirit and an absolutely new watchmaking approach. The design of the C1 Tourbillon Gravity was created by Blade Design that managed to present the engineering of the watch in a totally unexpected and daring way. Tourbillon The first surprise is the independent tourbillon placed alongside the body of the watch. The tourbillon seems to be released from the mechanism. Fitted external to both the dial and the case, the tourbillon allows more free space inside the watch, so watchmakers are able to create other complications. The tourbillon is linked to the rest of the mechanism by a perpendicular pinion. The tourbillon carriage produces a powerful visual effect, being housed in a crankcase laterally screwed to the case. The vertical device is instantly visible on the wrist. The upper and lower bridges of the tourbillon carriage are produced from aluminum-lithium, a unique high-tech material widely applied in the aerospace industry. Aluminum-lithium is characterized by remarkable resistance and exceptional longevity. The alloy is anti-corrosive and anti-magnetic. Moreover, it offers the best compromise between sturdiness and lightness. Small Seconds The rebellious seconds display is one more amazing feature of the new Concord watch, with its mechanism breaking out of the dial and the display transferring time into completely new dimension. A slim black aluminum strip with the engraved seconds numerals is fixed to the lower bridge of the tourbillon, having thus acquired full interdependence with the carriage spinning on its axis once a minute. The luminescent seconds are perfectly visible through an open window on the side of the tourbillon carriage. The innovative mechanism is even more surprising than the small seconds display on the C1 Chronograph. Concord's free spirit has officially conquered the universe of haute Horlogerie. On Thursday November 13, 2008, The C1Tourbillon Gravity was consecrated favorite design watch of the year by a jury of international watch specialists during the prize-giving ceremony of the prestigious Grand Prix d'Horlogerie de GenÃ"ve. The ambassador of a new generation of watches, the C1 Tourbillon Gravity has thrust Concord into an era of innovation and confirms a firmly futuristic approach to watchmaking. This horological instrument marks a new milestone in the brand's journey to the heart of technology and engineering. Born from the enthusiasm and the conviction of a passionate team, this timepiece was conceived, elaborated and assembled in only twelve months. Presented during Baselworld 2008, it caused a tidal wave in the watch industry. At the time, the press, the public and the industry celebrated the complexity of its mechanism, developed in collaboration with BNB Concept and applauded its aesthetical strength, created by blade Design. This specimen reinvents mechanical precepts in a singular stage-setting. The hand-wound Concord caliber with a 3,5 days power reserve, displays time in a spectacular case; spectacular in terms of construction and of volumes. A tourbillon disconnected from the case, an unusual seconds indication, a flyback chronograph, a trust index display: all these specific features incarnate the audacity of a brand that reinvented itself just two years ago. By honoring the C1 Tourbillon Gravity with the Design watch of the year award, the Grand Prix d'Horlogerie de GenÃ"ve is honoring the performance of a brand, and acknowledging the power of design of the entire C1 collection, which anchors the art of time in audacity and innovation. It thus recognizes Concord's contribution to the prestige of haute Horlogerie. Over 500k new.

157 HD3 Idalgo

Case: Yellow Gold and Titanium Bracelet/Strap: Black Leather Crocodile Clasp: Stainless Steel Buckle Dial: Textured Silver with Bronze Accents Movement: Automatic Self Winding Dimensions: 39mm Water Resistance: 50m Features Personally designed by Jorg Hysek, Retrograde, Date, 42 Hour Power Reserve LIMITED EDITION: 4 of 33 Originally Priced New: \$29,873.00 This series of HD3 Complication watches marries luxury with uniqueness. The stunning designs will strike a bold impression on the wrist. Beginning with the intentionally visible screws on the case, each carrying out a specific function, this watch is built to be visually striking and functional. The border of screws catches the eye, but each one also serves a specific purpose. The slender hands keep the time, steadily ticking away. The entire machine is built to be an elegant mechanism. The beauty of a timepiece lies both in the machine and on the surface. The HD3 Complication series is built to last. Just a single aspect of the mechanics is the 100-hour power reserve. The purpose of the design is to merge the design's beauty and engineering accomplishment. Even the gears have been made visible, while not becoming distracting. This watch is bold, bringing together beauty and practicality

161 Maitres du Temps Charter Two Triple Calendar Case: 18K White Gold Bracelet/Strap: Hand-Stiched Black Aligator Clasp: 18K White Gold Folding Clasp Dial: Black Guilloche Dial with a Silver Ring and Black Roman Numerals Movement: Automatic Dimensions: 58mm x 42mm x 16mm Features Black guilloche dial with 18k rose gold hour/minute hands, silver ring with black roman numeral hour markers. Automatic winding mechanical movement. Instantaneous triple calendar: big date, day, and month. Finishing: sun-ray CÃ 'tes de GenÃ"ve, perlage, beveling, colimaçonnage, and polished screw heads. The Chapter Two The Chapter Two is the result of the collaboration of two master watch-makers; Daniel Roth, a veteran of the Swiss watch industry renowned for his incredibly complicated timepieces and Peter Speake-Marin, one of the industry's best up-and-coming independent watch-makers. The goal was to produce the most readable triple calendar wristwatch on the market through the use of two specially made (and deceptively complex) rollers which display the month and the date. The rollers and big date are instantaneous, so the custom built automatic movement was designed to store enough energy during the day to move all of the date functions at the same time, which by all accounts took a great deal of expertise and ingenuity to perfect. Presented in a very attractive tonneau case, the Chapter Two features bright, diamond cut, solid gold hands, small seconds and a two-disc big date indicator at the 12 o'clock position, which finishes off the watch very nicely. As with many high-end watches, it is the little touches that really set it apart. For example, the 22K solid-gold winding rotor has a beautiful basket weave pattern (panier guilloche) engraved upon it. What many people don't know though is this exceptional finishing is thanks to the skills of a retired master engraver known to Daniel Roth, who was persuaded to help them out only three days before he was due to dispose of all his tools. What a way to finish a career! 162 Porsche Design P`6910 Indicator Case: Titanium Bracelet/Strap: Black Rubber Strap Clasp: Titanium Clasp Dial: Black Dial With Honeycomb Design Movement: Automatic Winding Water Resistance: 50m Diameter: 49mm Features Luminous Arabic Numerals And Baton Indexes, Outer Minute And 1/4 Seconds Divisions To The Sapphire Glass, Subsidiary Dial For Constant Seconds With Blinking Mechanism When Operating, 46-Hour Power Reserve Indication At 6, Purely Mechanical-Digital Stopwatch Display, Luminous Arrow Hands LIMITED EDITION NO 73/100 Price New: \$170,000.00 Ever since the brand was founded, Porsche Design timepieces have been characterised by their functional, minimalist appearance. This quest has led to timeless watches that allow perfect time-keeping, in keeping with the sports vocation of the Porsche brand. Once again Porsche Design has set a new milestone in watchmaking: The Porsche Design P'6910 Indicator combines chronograph functions with a genuinely mechanical jumping digital display. Even at a quick glance the stop hours, minutes and seconds can be captured with absolute certainty up to a total stoppage time of 9:59 hours. This absolute innovation in the area of mechanical watches is made possible by the most complex commercial wristwatch movement in the world that does its work inside this extraordinary timepiece 163 Roger Dubuis 18k Rose Gold Dual Time Power 164 Roger Dubuis Just for Friends Case: 18K Rose Gold Bracelet/Strap: Black Rubber Strap Clasp: 18K Rose Gold Push Button Clasp Dial: Black Web Dial with Carbon Fiber Accents Movement: Automatic Winding Water Resistance: 300m/900ft Thickness: 13.6mm Features Stick Markers, Rotating Bezel, Screw Down Crown, Flying Tourbilon Carriage at 7:00, Sapphire Crystal Case, Carbon Fiber Accents, Case Back Stamped "Roger Dubuis/Just For Friends LIMITED EDITION NO 12/28 The collaborative efforts of a former Patek Philippe complication engineer and a former Franck Muller designer, Roger Dubuis has quickly grown to become a highly respected player in the field. Eccentric and almost odd-ball designs (like you would expect from Carlos Dias with his Franck Muller heritage) combined with the absolute premium in movement design has launched Roger Dubuis into the big leagues, joining the ranks of its fellow watch companies in the Richemont group. If you don't care for the rather sterile and "timeless" designs you would find in, let's say, a Patek, a Roger Dubuis is definitely the watch for you. Exclusivity & Rarity Roger Dubuis utilizes the ever-popular approach to business in the exclusive watch world; high prices, low supply. Limited edition pieces with an aggressive sense of style and an almost unmatched watchmaking prowess is the recipe that will assure Mr. Dubuis' continued success in the watch world. 1001 ETERNA KONTIKI WATCH, SWISS MADE, 200M WATER RESISTANT, GENUINE ALLIGATOR HAND MADE STRAP, MODEL: 1220.41, S/N 236.924 ETERNA KONTIKI WATCH, SWISS MADE, 200M WATER RESISTANT, GENUINE ALLIGATOR HAND MADE STRAP, MODEL:
